

WEBBURN

Another amazing week Webburn! We have been absolutely delighted with the learning we have been seeing on Seesaw, whether that be doing tasks we have set or being creative and doing your

Finding the words around the bedroom

own activities. This week you have made obstacle courses, shops and posters about people in our communities, you are all so creative and it has been lovely to see what you come up with. This week we would like to give a shout out to Wilson and Willem who are making a really big effort with their jobs, particularly paying attention to what he is being asked to do and listening to advice. Everyone is doing a fantastic job, keep up the good work!

Miss Knott

LOWER DART

Once again Lower Dart, you have had an amazing week on Seesaw. What has been particularly nice this week has been seeing, not only your responses to the set activities, but also your own activities which you have been putting on. Luca sent a fabulous picture of his hand-made Star Wars Top Trumps and I have been impressed

Today we made 16 star wars top trump cards

with Caitlin who has been reading her super tricky book to me every single day this week! Lily and Jack have also been busy as key workers on their farm and we have started learning about the Ancient Greeks by putting some key events on a timeline. I also want to thank our wonderful parents. You are doing an incredible job supporting your children with their home learning and we recognise how tricky this can be so well done, I think you are our Lower Dart Superheroes this week. **Mrs Rolls**

This week we have been looking at what animals eat and sorting them into carnivores, herbivores and omnivores. We have also been grouping and identifying living things, playing Boggle, practising our computer coding skills, making pebble pets and making up dances to our favourite songs! **Mrs Reynolds**

UPPER DART

Upper Dart you have had a great week this week, you have been bringing your Greek pot designs to life and have made some fantastic creations out of card, clay and even cast in plaster.

Well done all on your maths and English work this week, I am so happy to see all the great learning that you are managing to do despite being on lockdown in your homes, keep up the good work.

We have also been learning about parts of the body in Spanish this week and I have seen and heard some fantastic labelled portraits and voice recordings, we have been looking at the j and z sounds and the tilde accent. Make sure you keep testing your children on their 'partes de cuerpo'.

Next week we have our spelling test and Geography quiz on Tuesday so don't forget to practise for those and lastly a huge well done to our learners of the week Bessie, Sophie and Albie. **Mrs Carr.**
